## Modelling Scissor

Products name: Modelling Scissor

Model: 05-219

The answer to modelers' and crafters' needs for an ultra precise scissor. Cuts fine or delicate items, including materials such as silk embroidery floss or thin mylars and delicate photoetched parts with a clean, square edge exactly where the scissor is positioned. Ideal for cutting wood reed used in caning and basketry. Cushion grip, Xuro-Rubber handles and our Light Touch return spring replace conventional finger loops, for increased comfort and precision. This innovative design is especially advantageous for users with arthritic hands. Rated for cutting soft metals up to 0.005".
