

04 Varnishing + Coating, Colours > SURFACE DESIGN > Viscose Flakes, black

## Viscose Flakes, black

Products name: Viscose Flakes, black

Model: 04-111

With these extremely fine viscose flakes you can e.g. produce a very realistic looking carpet in your model car. Other possibilities are e.g. plush in a van or hat racks, seats etc. Application is simple: Brush the surface thickly with the same colour as the viscose flakes. Water-soluble colours are suited best. Then dust the flakes on with a tea strainer before the colour dries. And hey presto! The floor looks real - only in a reduced scale. One container with each 20 ml.
